Research Interest

My research focuses on **Efficient AI and Computer Vision**.

Education

Sogang University, South Korea Sep. 2023 - Present
Ph.D. candidate, Electronic Engineering – Advisor: Prof. Suk-Ju Kang

Korea University of Technology and Education, South Korea Feb. 2022
B.S., Electronic Engineering

Publications

Conference

1. [**NeurIPS 2026**] **Jincheol Yang**, Jaemin Choi, Nahyun Lim, Yun-Seong Jeong, Matti Alexander Zinke, Hyunwoo Yu, Bongjoon Hyun, Kyomin Sohn, Suk-Ju Kang†. Post-Training Quantization with Gradient-Projected Fisher Approximation for Vision Transformers. (†: Corresponding Author.) [Paper] [Code]
2. [**NeurIPS 2026**] Jaemin Choi, **Jincheol Yang**, Nahyun Lim, Yun-Seong Jeong, Matti Alexander Zinke, Hyunwoo Yu, Suk-Ju Kang†. SPA-Q: Structure-Preserving Adaptive Post-Training Quantization for Monocular Depth Estimation. (†: Corresponding Author.) [Paper]
3. [**NeurIPS 2025**] **Jincheol Yang**, Jaemin Choi, Matti Zinke, Suk-Ju Kang†. QSCA: Quantization with Self-Compensating Auxiliary for Monocular Depth Estimation. (†: Corresponding Author.) [Paper]
4. [**IMID 2026**] **Jincheol Yang**, Jaemin Choi, Matti Alexander Zinke, Nahyun Lim, Hyunyoung Choi, SangGu Lee, TaeSeok Jeong, Suk-Ju Kang†. Sequential Image Restoration Frameworks: Super-Resolution and Deblurring. (†: Corresponding Author.)
5. [**ICMLW 2026**] **Jincheol Yang**, Jaemin Choi, Nahyun Lim, Yun-Seong Jeong, Matti Alexander Zinke, Hyunwoo Yu, Bongjoon Hyun, Kyomin Sohn, Suk-Ju Kang†. Implicit Off-Diagonal Curvature Modeling via Gradient Projection for Post-Training Quantization of Vision Transformers. (†: Corresponding Author.)
6. [**ICMLW 2026**] Jaemin Choi, **Jincheol Yang**, Nahyun Lim, Yun-Seong Jeong, Matti Alexander Zinke, Hyunwoo Yu, Suk-Ju Kang†. Structure-Preserving Adaptive Post-Training Quantization for Monocular Depth Estimation. (†: Corresponding Author.)
7. [**ICMLW 2026**] Yun-Seong Jeong, **Jincheol Yang**, Nahyun Lim, Jaemin Choi, Matti Alexander Zinke, Suk-Ju Kang†. Structural Outlier-Aware Post-Training Quantization for Monocular Depth Estimation. (†: Corresponding Author.)
8. [**ICMLW 2026**] Hyunwoo Yu, Jongbeom Lee, Jaemin Choi, **Jincheol Yang**, Yubin Cho, Joonsik Nam, Seunghun Moon, Jung-Woo Chang, Bongjoon Hyun, Kyomin Sohn, Kyeongbo Kong, Suk-Ju Kang†. Reducing Attention Distribution Error with Unified Tail Aggregation for Sparse Attention. (†: Corresponding Author.)
9. [**SID 2026**] Jaemin Choi, Matti Alexander Zinke, **Jincheol Yang**, Hyung Uk Cho, Hyunyoung Choi, SangGu Lee, Suk-Ju Kang†. Enhancing Perceptual Quality on High-Resolution Displays: A Unified Deep Model for Super-Resolution and Deblurring. (†: Corresponding Author.)

Journal

1. [**IEEE Transactions on Industrial Informatics**, IF:9.9] **Jincheol Yang**, Matti Zinke, Beoungwoo Kang, Hyung Uk Cho, Hyunyoung Choi, SangGu Lee, Suk-Ju Kang†. Efficient Monocular Depth-Based Physical Distance Measurement for Low-Depth Scales. (†: Corresponding Author.) [Paper]
2. [**Journal of Information Display**, IF:4.3] Junho LEE, **Jincheol Yang**, Jimin Roh, Geonwoo Kim, Yunseok Song, Heechul Lim, HyunBoo Lee, Suk-Ju Kang†. Adaptive Feature Refinement with Information Preservation for Multiclass Unsupervised Anomaly Detection. (†: Corresponding Author.) [Paper]

Under Review

1. [**Under Review**] **Jincheol Yang**, Jaehyun Pyun, Jaemin Choi, Nahyun Lim, Hyunwoo Yu, Suk-Ju Kang†. Future-Query-Guided KV Cache Compression for Visual Autoregressive Modeling. (†: Corresponding Author.)
2. [**Under Review**] Jaehyun Pyun, Seunghun Moon, **Jincheol Yang**, Hyunwoo Yu, Geonwoo Kim, Suk-Ju Kang†. Compressed Visual Tokens Are Not Equal: Volume Calibration for Efficient Video Large Language Models. (†: Corresponding Author.)
3. [**Under Review**] Jongbeom Lee, Hyunwoo Yu, **Jincheol Yang**, Jaemin Choi, Suk-Ju Kang†. SparSTAR: Sparse Attention for Spatiotemporal Autoregressive Video Synthesis. (†: Corresponding Author.)
4. [**Under Review**] Jaehyun Pyun, Seunghun Moon, **Jincheol Yang**, Yun-Seong Jeong, Geonwoo Kim, Suk-Ju Kang†. Train Wide, Act Narrow: The Learning Geometry of Visual Adaptation. (†: Corresponding Author.)
5. [**Under Review**] Jaemin Choi, Nahyun Lim, **Jincheol Yang**, Suk-Ju Kang†. ResceneKV: Reconstruction-Error Selective KV Cache Eviction across Nested Scales for Visual Autoregressive Modeling. (†: Corresponding Author.)
6. [**Under Review**] Hyunwoo Yu, Jongbeom Lee, Hyunbin Kim, Sungjun Park, Jaemin Choi, **Jincheol Yang**, Seunghun Moon, Bongjoon Hyun, Kyomin Sohn, Kyeongbo Kong, Suk-Ju Kang†. OpenAttention: One Percent is ENough with Variance-Aware Tail Aggregation for Sparse Attention. (†: Corresponding Author.)
7. [**Under Review**] Hyunwoo Yu, Jongbeom Lee, Jaemin Choi, **Jincheol Yang**, Yubin Cho, Joonsik Nam, Seunghun Moon, Jung-Woo Chang, Bongjoon Hyun, Kyomin Sohn, Kyeongbo Kong, Suk-Ju Kang†. Towards a Low-Delta Oracle Policy for Improved Upper Bound in Sparse Attention. (†: Corresponding Author.)
8. [**Under Review**] Jaemin Choi, Nahyun Lim, Matti Alexander Zinke, **Jincheol Yang**, Hyunyoung Choi, SangGu Lee, TaeSeok Jeong, Suk-Ju Kang†. NBAFE: NPU-friendly Blur-Aware Frequency Enhancement for Single Image Defocus Deblurring. (†: Corresponding Author.)

Research Experience

Samsung Electronics, South Korea | *Collaboration* — Sep. 2025 – Present

- Research on memory-efficiency-focused model compression and optimization techniques for large-scale deep learning models

Samsung Display, South Korea | *Collaboration* — Mar. 2025 – Present

- Collaborated with *Computer-Aided Engineering team* – Development of AI technology for Image Quality restoration

Samsung Electronics, South Korea | *Collaboration* — Sep. 2024 – Sep. 2025

- Development of a memory-fused transfer-operation-based deep learning hardware accelerator for improving energy efficiency

Samsung Display, South Korea | *Collaboration* — July. 2023 – Feb. 2025

- Collaborated with *Computer-Aided Engineering team* – Development of AI technology for image-based Depth estimation

Korea Electronics Technology Institute (KETI), South Korea | *Intern* — July. 2022 – May. 2023

- Collaborated with *Intelligent Image Processing Research Center*

Academic Services

Conference Reviewer — NeurIPS 2026 (Top Reviewer), ICLR 2027

Journal Reviewer — Information Fusion

Skills

Programming Languages — Python, C++, Java

Machine Learning Frameworks — PyTorch

Embedded Systems — NVIDIA Jetson, Qualcomm SNPE

Awards

Best Poster Award, The 26th International Meeting on Information Display (IMID 2026) — Aug. 2026

Best Paper Award, Department of Electronic Engineering, Sogang University — Dec. 2025

Outstanding Paper Award, Sogang University — Dec. 2025
